Science

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

1. Introduction. Health is a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity .Healthcare facilities (HCF) are places where patients with health conditions go for treatment, which is provided by specialists and other care professionals.

Physics

Physics (from Ancient Greek: φυσική (ἐπιστήμη), romanized: physikḗ (epistḗmḗ), lit. 'knowledge of nature', from φυσική φύσις "nature") is the natural science that studies matter, its motion, and behavior through space and time, and that studies the related entities of energy and force. Physics is one of the most fundamental scientific disciplines, and its main goal is ...
